## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Albertini et al.

Albertini et al., discloses a construction test apparatus and one of his embodiment show an arm with a base adapted to flex upon the application of a force, and precisely two arms (see, for example figure 5 or 6), extending from the base parallel to the force direction, and sensor means to provide for signal responsive to the applied force (see, for example, claim 10).

3. Claims 19-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 1-17 are allowed over the prior art of the record.

Art Unit: 2855

*Response to Amendment*

5. Applicant's amendment and arguments filed 12/05/03 have been fully considered, but they are moot in view of the new ground of rejection. The terminal disclaimer is proper and is filed .

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
